The evaluations module of The GME System not only facilitates automated notification (E-mail), management (overdue notices, listing of completions, etc.) and completion (web based form is filled out by each evaluator) but also is a pathway to measuring competencies, skills and other concepts that are important in today's GME landscape.

### Evaluation results are correlated to competencies and management of the process is EASY with The GME System.

#### User Friendly

Use the web to enter results  
All questions and answers on one page

#### E-mail Integration

Notification when evaluation is completed  
Immediate notification of a "low score"

#### Evaluator Anonymity

All data collected is anonymous to the evaluatee  
Confidential comments for sensitive feedback

#### Easy Scheduling

Automatically send out evaluations at the end of a rotation  
Ad-hoc evaluations created with a few clicks

#### Process Management

Each program can quickly ascertain completed, opened and declined evaluations  
All evaluations for a program are maintained in one application

#### 360 Degree

Medical professionals outside of a program can participate

#### Completely Customizable

Each program builds their own evaluations  
Multiple question types are available - laquard scale, free text, etc.

#### Measure Competencies

All questions can be linked to skills and rolled up into competencies  
Generate competencies "scores" by weighting answers

#### ACGME Compliant

Tracks resident evaluation review status  
Resident evaluations always on-line for review

#### Integrated

Utilizes demographic and residency program data already collected  
Leverage rotational schedules to facilitate automatic scheduling

**Collaborative. Informative. Intelligent.**
