

The GME System

Resident Management

Maintain all demographic and professional resident information within one application.

Utilizes:

E-mail
PC

Features:

Secure
User Friendly
E-mail Credential Alerts
ERAS & Upload
Customizable Data
Orientations
Administrative Posts

Resident information is a cornerstone of The GME System. Baseline demographic information such as birth date, etc. is just the beginning. All data that is captured can be leveraged later for processes such as E-mail notification of credentials expiring so they can be pro actively managed. Visas, addresses (even post-graduate), education, and other vital information can be securely stored and disseminated appropriately.

All data can be shared and maintained collaboratively. Complete with security and access safeguards, your data is accessible yet safe.

Secure

Personnel see only those residents they manage
Certain information can be made available in read-only access
Data can be maintained both centrally and within each program
Sensitive data such as Social Security Number can be hidden

User Friendly

All resident data is maintained within one application
Data is maintained via lists to prevent data entry errors
All data is kept on-line for historical reporting

E-mail Credential Alerts

Robust framework that can be customized to send E-mail alerts
E-mail alerts are customizable to each program
Alerts can be escalated as expiration date approaches

ERAS & Upload

Upload resident data from ERAS with easy to use interface
Upload resident data from existing databases

Customizable Data

Custom data elements can be created
Multiple dates can be stored with each data type
Multiple data elements can be stored with each data type

Orientations

Record attendance of required and optional orientation programs
Complete with dates of attendance

Administrative Posts

Keep record of administrative posts held by residents
Complete with dates of service and organizational location
